

**MED**  **ELITE**™

# **HELP YOUR HORSES RECOVER FASTER WITH THE MULTI-MODALITY MED4 ELITE™**

Now, veterinary professionals have an unprecedented tool for accelerating recovery following injury or surgery. Ditch cumbersome and messy treatment methods such as hosing, typical contrast baths, ice boots, and salt water spas for the powerful, compact, and convenient Med4 Elite™ Veterinary System by Game Ready.®

**G A M E**  **R E A D Y**®

# FOUR ADVANCED THERAPEUTIC MODALITIES, ONE BREAKTHROUGH RECOVERY SYSTEM

Enhance recovery with an efficient and targeted combination of dry iceless cold, controllable heat, ultra rapid contrast, and active compression therapies. An intuitive touchscreen interface allows you to easily monitor and adjust time, temperature, and compression levels. And two hoses enable the simultaneous treatment of multiple injuries or animals.

## ICELESS COLD [down to 3°C /38°F]

Creates its own deep-penetrating, longer-lasting cold to promote vasoconstriction, safely relieve pain without narcotics following acute injury or surgery, and reduce metabolic demand, muscle spasms, and inflammation.

## CONTROLLABLE HEAT [up to 45°C /113°F]

Generates its own controllable heat to promote vasodilation and increase circulation to the injured area, support the lymphatic system, reduce pain and inflammation, and stimulate natural healing after acute or chronic injury.

## RAPID CONTRAST [<1 minute changeover]

Rapid contrast therapy delivery alternately opens and constricts the vascular system in a targeted injury area to relieve pain and increase arterial blood flow without causing additional edema – efficiently, compactly, and cleanly.

## ACTIVE COMPRESSION [4 levels, 5-75 mm Hg]

Patented intermittent pneumatic compression mimics natural muscle contractions to “pump” edema away from the injury area, and helps conform the wraps to the animal’s body for better surface contact and more effective cold/heat therapy.

## FULLY COMPATIBLE WITH EXISTING GAME READY VETERINARY WRAPS

The Med4 Elite is fully compatible with Game Ready’s existing and comprehensive line of veterinary wraps, featuring patented NASA technology.

Anatomically designed for better fit and comfort, Game Ready’s low-profile wraps provide circumferential coverage and – aided by pneumatic compression – ensure greater surface contact to optimize therapeutic cold, heat, and rapid contrast therapies.

Available equine line Utility, Full Leg, Hock, and Back Wraps are convenient and easy-to-apply for effective, controllable, targeted treatment.
